| <a href="#">Cute Food Adoption Center</a> | Other                                 | My main product is cute handsewn food made from felt. I will also have cute food accessories (barrettes, necklace charms, ornaments, keychains, stickers, beds for the adoptable pickles). Much of the food comes with an adoption certificate, a name, a pillow and blanket, and packaged in a little box. I also have some small art prints, bookmarks, and buttons/pins. When adopting their food, everyone gets a kick out of getting the food's name by inserting a coin into the vending/gumball machine.                                                                                |
